

Simplifying and Expanding

Simplify:

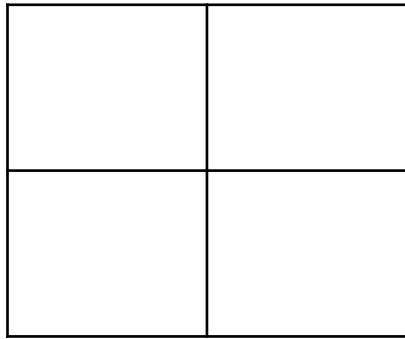

$$5 + 3y - 2 + 4y$$

$$5x + 30 - 2x + 40$$

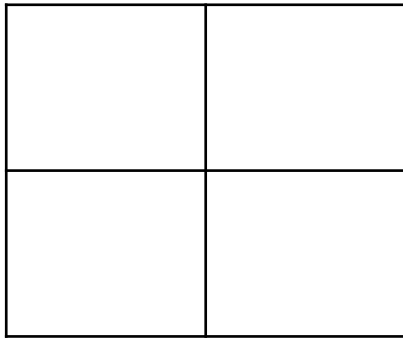

$$5x + 3y - 2x + 4y$$

Expand and Simplify:

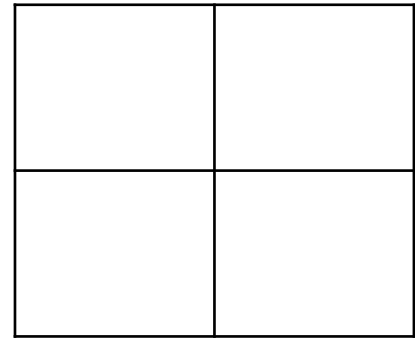

$$(x + 3)(x + 5)$$

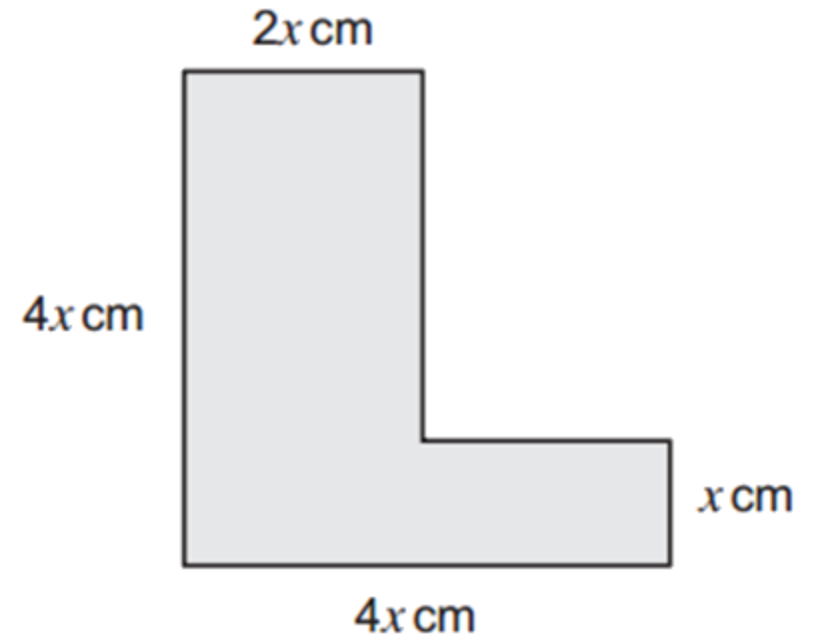

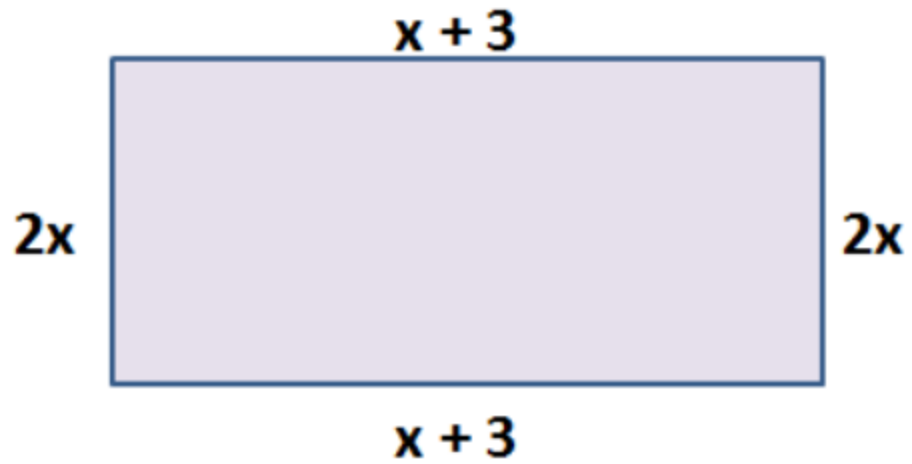

$$(x + 3)(x - 5)$$

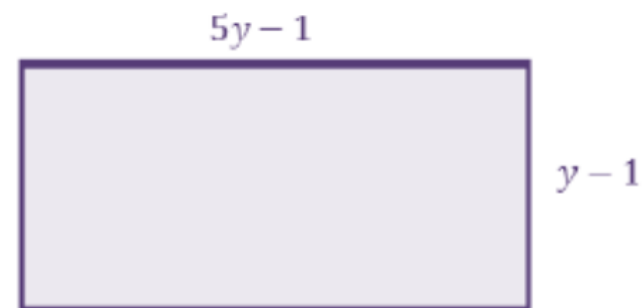

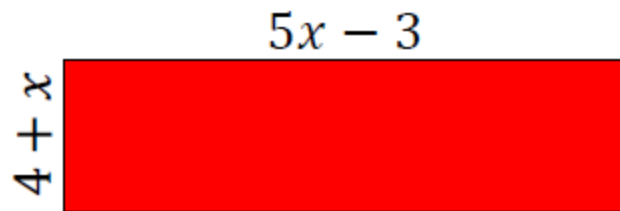

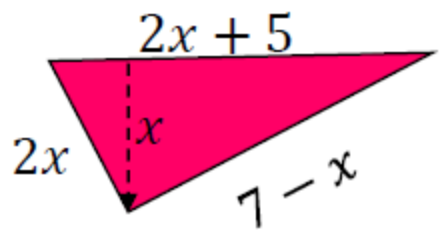

$$(x - 3)(x - 5)$$

Find the perimeter and area:

Find the Area and Perimeter for each shape.
